Immediate Joiner | Location Preference: Thane/Remote/Mumbai

Professional Summary:

Front-End Developer with 3.8+ years of experience specializing in **React.js, Next.js, and modern JavaScript frameworks**. Proficient in **React.js, Redux, Next.js, JavaScript, TypeScript, and REST API integration**, with a strong focus on **performance optimization and cross-browser compatibility**. Experienced with **Redux, Context API, hooks optimization, code splitting, and lazy loading**. Knowledgeable in **unit testing (Jest, React Testing Library)** and Agile methodologies. Skilled in **Git, Webpack, Babel, responsive design**, and building **scalable, enterprise-grade Web and Mobile applications** for BFSI and healthcare domains. Immediate joiner with a passion for **clean, maintainable code** and staying updated with the latest front-end technologies.

Technical Key Skills:

- **Languages:** JavaScript (ES6+), TypeScript.
 - **Frontend:** React.js, React native, Next.js, Redux, Context API, HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI.
 - **Backend:** Node.js, Express.js.
 - **Databases:** SQL, MySQL, MongoDB.
 - **Tools / Build / Deployment / Integration:** Git, GitHub, Webpack, Babel, Vercel, Jenkins, Chrome DevTools, Figma, Postman, Thunder Client, Stripe, Razorpay
 - **Other:** Responsive Design, REST APIs, Context API, Cross-Browser Compatibility, Performance Optimization, Hooks Optimization, Lazy Loading, Code Splitting, Agile/Scrum.
-

Professional Experience:

Front End Developer | Neural IT | September 2024 – Dec 2025

Client: Bank of America

Business Challenge: Bank of America needed to digitize its internal case management processes to improve operational efficiency, enhance audit readiness, and ensure compliance with evolving US financial regulations.

- Developed responsive, interactive web applications using React.js and Next.js, ensuring high performance and scalability.
- Built reusable components, managed state effectively using Redux, and optimized application performance for complex banking workflows.
- Integrated REST APIs and implemented modular architecture for enterprise-grade applications.
- Developed mobile banking features using React Native for iOS and Android platforms, ensuring secure transactions and smooth user experience.
- Managed delivery of journeys for internal banking teams, enabling streamlined workflows and improved user experience.
- Oversaw integration of cross-border transaction tracking and reporting features aligned with SWIFT standards and ISO20022 messaging formats.
- Collaborated with UX/UI teams to translate wireframes into high-quality code using Material UI and Tailwind CSS.
- Conducted UI/UX prototyping in Figma and participated in code reviews and Agile sprints.

React JS UI Developer | End Point IT Services Pvt Ltd, Mumbai | December 2023 – September 2024

- Developed HRMS features including onboarding, payroll, and performance tracking using React.js and Redux.
- Ensured cross-browser compatibility and responsive design across all modules.
- Implemented authentication flows and optimized API calls for better performance.
- Built mobile HRMS modules using React Native, including employee onboarding and leave management, optimized for cross-platform performance.
- Contributed to BFSI Banking Mobile and Web Application Journey, including Banking Case Management Software for streamlining customer onboarding, loan processing, and compliance workflows.
- Integrated REST APIs with secure data handling and implemented role-based access control for sensitive banking operations.
- Built reusable UI components and optimized rendering for high-volume transaction dashboards.
- Collaborated with QA teams to perform functional and regression testing using Postman and React Testing Library.
- Worked closely with backend teams to ensure seamless integration with microservices architecture and maintain data integrity.

Web Developer React Js |Sublime Technocorp Pvt Ltd. | February 2022 – October 2023

- Developed cross-platform web apps using React.js and ensured responsiveness across all devices.
 - Developed mobile versions of e-commerce and healthcare apps using React Native, ensuring responsive UI and API integration.
 - Worked on integrating RESTful APIs and third-party services with the frontend.
 - Managed Git version control workflows for seamless code collaboration.
 - Focused on code modularity, reusable components, and clean folder structures to maintain large-scale projects.
 - Maintained strong documentation practices for handover and knowledge sharing.
-

Projects:

1. **Annadata Website** – *Agri E-Commerce Platform* Enabled direct farmer-to-consumer transactions, promoting price transparency and supply chain optimization.
 2. **Renuka Admin Panel** – *Construction QA System* Back-office panel for material testing labs to manage data entry, scheduling, and report generation.
 3. **Harjj Website** – *Live Auction Platform* Developed a scalable auction interface with real-time bidding and broadcasting functionalities.
 4. **Clinic Management System** – *Healthcare SaaS Solution* Built to streamline appointments, billing, patient records, and multi-location doctor access.
 5. **Mutual Fund Calculator** – *Investment Tool* Developed a front-end module for financial analysis, return forecasts, and SIP visualization.
-

Education:

- **Master of Computer Science** | KMC College, Khopoli (Mumbai University)
July 2020 – May 2022
 - **Bachelor of Computer Science** | KMC College, Khopoli (Mumbai University)
July 2017 – May 2020
